BAIE DE SUCRE ,BEQUIA

BAIE DE SUCRE
PRICE : \$395,000 USD - \$2,500,000 USD

OVERVIEW

Baie de Sucre presents a selection of residences that are perfectly suited to the sunny, fresh air life in the tropics and the cooling trade winds of The Grenadines. The traditional roof covered is carefully constructed to reflect the sun's rays, and wooden balustrades compliment these traditional Caribbean homes.

With a selection of home locations: from the glorious beach fronts, all the way up to the hillside with its amazing views and luxury villas - each of the villas feature fabulous infinity swimming pools, over sized veranda's, an abundance of open space and indoor/outdoor living.

Beach Cottages -

Out of the 39 beach cottages, the three property styles each have their own plunge pool and terrace and direct access to the beach and hotel facilities. These are a unique home and property investment that together produce one of the Caribbeans finest boutique resorts.

Beach Villas -

Of the 6 beach villas - each property will have its own private access onto the beach, a pool, gazebo and an entertaining area located overlooking the beach. There is also a second pool and up to 8 bedrooms.

Ridge Villas -

The ridge villas have stunning uninterrupted views of the Grenadines from an elevated secluded position.

The properties feature four and five en-suite bedroom styles with a pool, dining terrace, great room and gazebo

Ridge top villas -

This land was specifically selected to create some of the most exclusive high end villas in the world. The ridge top villa show home has just been completed and we would encourage any interested party to visit this property

Each villa has been uniquely designed by the architect Lane Pettigrew to the highest specification. With expansive outdoor living areas and large outdoor pools, each property has been specified to the highest quality.

The property investment is pension compliant and provides a great way to enjoy an annual return, capital growth and some rest and relaxation. With Cottages starting at US\$395,000 for a one bedroom and average daily rates at over US\$500 per night, we think you'll agree. The villa owners also have the benefit of renting their property out through the hotel resort and will receive income based on usage.
