CASALE CAMPO AL DOCCIO , 1 - 3 BEDROOMS , 1 - 3.5 BATHROOMS
PRICE : PRICE ON REQUEST

OVERVIEW

Along the quiet road to the quaint hilltown of Mensano, a traditional shrine to the Madonna is tucked between a narrow gravel pathway and just beyond is the entry to Casale Campo al Doccio. Passing through vineyards and flowing oaks, the ascent to the home brings you to one of the highest points at Castello di Casole, and a breathtaking panorama of the Tuscan countryside.

Among the most contemporary of all the farmhouses on the estate, Casale Campo al Doccio takes full and dramatic advantage of its hillside setting – as the levels cascade so too do the expansive outdoor living areas. Indeed, Casale Campo al Doccio is endlessly entertaining and surprising, for at every turn spaces open out to the terraces, including each of the two master suites, one up, and one down stairs. In all, there are three bedrooms and three and two half baths. The vine-covered pergola overlooks the sunning area, which in turn wraps a stunning infinity edge, glass mosaic pool that sparkles by day and night. Set into the pool is an inviting hot tub.
