

VILLA SANTIAGO ,MALLORCA

VILLA SANTIAGO , 4 BEDROOMS , 4 BATHROOMS

OVERVIEW

With plenty of space for guests to relax and take in the beautiful views of the Mediterranean Sea, this villa is full of history as the original turret dates back to the 13th century. Villa Santiago boasts an interconnected lounge and dining area, a perfect place to eat your breakfast together and start your day. Outside of the villa, two of the most popular shared places for guests to enjoy are the spacious outdoor dining and lounge areas, both with breath-taking views of the coastline. From here, it's only a short walk down to the private heated swimming pool (12 x 5.5 metres). Spread over three floors, this property can sleep up to eight adults in four bedrooms. One bedroom is located in the villa's signature turret, with a curved stairwell leading from a luxurious bathroom on the lower level. Fantastic views of the dramatic Mallorcan landscape can be seen from every room.
