BEACHFRONT GODINGS BEACH HOUSE , BARBADOS

BEACHFRONT GODINGS BEACH HOUSE , 5 BEDROOMS , 5 BATHROOMS

## OVERVIEW

Striking and stylish, Godings Beach House is the very latest offering to the Barbados rental market. It is located on the west coast.

This newly built, ultra exclusive beach house boasts all the facilities you would expect from a rental villa of its calibre. It sits directly beside the beautiful golden sands of Godings Bay.

You will enter Godings Beach House through its colonial gates. It sits in tranquil tropical gardens. Your first view beyond the immaculate open living space is to the breathtaking Caribbean Sea. It really does take your breath away. Contemporary glass vases artfully overflow with decorative, white roses.

The ground floor of Godings Beach House is bright and open plan throughout. Its huge windows foster a calming sense of being at one with your natural surroundings.

A large and comfortable living area enjoys a cooling breeze and captivating views of the sea. To the north of the ground floor an imposing oak table provides ample space for dining. A modern "Boffi" kitchen allows guests, or their butler to prepare drinks and snacks.

The main commercial kitchen of Godings Beach House (yes there are two beautiful kitchens!) allows the cook to create delicious gourmet meals out of sight.

For less formal occasions two ambient open air seating areas offer a perfect setting in which to dine beneath the sultry evening sky.

Running parallel to the living room is a 25 metre long pool. This is enclosed by a limestone deck. Comfortable sun loungers provide a perfect space to relax. The pool is ideal for laps or just for cooling off. At each end of the pool are pavilions which can be used for a number of activities. These include yoga, massages and al fresco dining.

Also on the ground floor is a unique, air conditioned office. It has glass walls and views over the extensive pool and lush gardens to the glistening sea beyond. Beside the office you will find a cinema. There is also a fitness room featuring a full range of state of the art equipment.

Grand staircases stand at either end of the beach house and are dressed by chandeliers. These are made of delicate seashells which sway and whisper as the cooling trade winds flow through the house.

On the first floor are five good sized double bedrooms some of which have four poster beds. All the bedrooms showcase stunning views of the sea.

The master bedroom features a large circular bathtub. It has floor to ceiling windows and commanding views.

Throughout the house rooms are finished to the highest of standards. They are decorated in with soothing, neutrally toned colours. There are creamy pastel tiles and fabrics. Technology includes Sonos sound systems and Lutron

lighting.

The villa itself is perched above the beach. The beach is accessed via secure keypad gates.

No holiday home in Barbados would be complete without its toys. From the beach you may use the house kayaks to paddle. If you prefer to body surf there are body boards.

There are also a pair of new Hobie Mirage Eclipse Stand Up Pedal Boards with handlebars. These can be pedalled through the waves making them super stable. It is a stylish way to enjoy being on the water.

This architectural dream house is completely enclosed with secure gated entrance.

When rented the rate for Godings Beach House includes a full complement of staff. This includes a butler, cook, housekeeping and laundress. There is also night time security from 7 pm to 7 am . There is a house manager and a full concierge can be provided as required.
